

Muhammad Atif

Not Just Building AI Building a Brand That Thinks, Learns & Leads.

As an AI Solutions Builder and Founder of VisionsCraft, I design and deploy intelligent systems that solve real-world problems, optimize business operations, and unlock new opportunities for growth. With hands-on expertise in Deep Learning, Generative AI, LLMs, and scalable web solutions, I'm committed to building technologies that drive meaningful impact.

From developing agentic AI systems to leading automation projects for startups, I bring a blend of technical depth and product vision. I actively explore advanced AI architectures, reasoning frameworks, and human-centered design to create digital teammates, not just tools.

Currently, I am leading AI and web innovation at VisionsCraft, engineering production-grade AI at CodAgentic, and mentoring tech talent through Topmate 1:1 sessions. I thrive in environments where creativity meets execution and am always open to collaboration, consulting, and transformative AI projects.

Let's connect if you're working on something ambitious in AI agent frameworks and memory modeling, AI-driven business automation, scalable intelligent web platforms, NLP, Computer Vision, or LLM applications. I believe the future belongs to intelligent, adaptive technologies that enhance human potential.

Experience:

Founder at VisionsCraft (Mar 2025 - Present)

Location: Lahore, Punjab, Pakistan (Hybrid)

Role: Leading AI and Web innovation

Artificial Intelligence Engineer at CodAgentic (Feb 2025 - Present)

Role: Working on AI, Deep Learning and Generative AI solutions

Intern at CodeClause (Feb 2025 - Mar 2025)

Role: AI Intern

Member at ACM Student Chapter, CUI Lahore (Sep 2024 - Mar 2025)

Location: Lahore, Punjab, Pakistan (Hybrid)

Role: Collaborated in team projects and academic activities

Education:

BS in Artificial Intelligence - COMSATS University Islamabad

Intermediate in Pre-Engineering - Punjab Group of Colleges (Grade: A+)

Certifications:

Certified AI Engineering Masterclasses - Udemy (Issued: Jun 2025)

Social Profiles and Services:

LinkedIn Connections: 500+ | Followers: 1,737

Offering Topmate Services for 1:1 Mentorship in AI and Tech Careers

Recent Highlights:

- Competed in TechnoVerse CUI Lahore, tackled advanced computer vision challenges, and gained deep insights into CNN structures and AI persistence.
- Shared thoughts on the evolution of AI ecosystems in 2025, including how cognitive infrastructures are being built using specialized AI models like LLMs, VLMs, MoE, and more.

I am committed to building not just AI systems, but digital teammates that adapt, evolve, and deliver value in every interaction.
